

Material Safety Data Sheet

Section1. Product Information and Company Identification			
Product name	Ammonium Phosphate Dibasic		
Mol.formula	H9N2O4P	Cas no	7783-28-0
Mol.wt	132.06 g/mol	Cat no	A048
Manufacture name	Pioneers for laboratory chemicals		
Brand name	Piochem		
Address	Area 540, Industrial Zone 6 th October city Giza, Egypt.		
Website	www.piochem.com		
E-mail	info@piochem.com		
Phone number	+201225728304 , +201023932115		

Section 2.Hazards Identification
<p>Classification of the substance or mixture:</p> <p>Irritant </p> <p>Eye irritation, category 2A Specific target organ toxicity following single exposure, category 3 Skin irritation, category 2</p> <p>Skin corrosion/irritation - Skin Irritation 2 STOT Single Exposure 3</p> <p>Signal word :Warning</p> <p>Hazard statements: Causes serious eye irritation Causes skin irritation May cause respiratory irritation</p> <p>Precautionary statements: If medical advice is needed, have product container or label at hand Keep out of reach of children Read label before use Wash skin thoroughly after handling Wear protective gloves/protective clothing/eye protection/face protection Avoid breathing</p>

dust/fume/gas/mist/vapours/spray

Use only outdoors or in a well-ventilated area

IF IN EYES: Rinse cautiously with water for several minutes.

Remove contact lenses if present and easy to do. Continue rinsing

If eye irritation persists get medical advice/attention

IF ON SKIN:

Wash with soap and water Specific treatment (see supplemental first aid instructions on this label) If skin irritation occurs:

Get medical advice/attention

Take off contaminated clothing and wash before reuse

IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing Call a POISON CENTER or doctor/physician if you feel unwell Store locked up

Store in a well ventilated place. Keep container tightly closed

Other Non-GHS Classification:

WHMIS NFPA/HMIS

NFPA SCALE (0-4)

Health	2
Flammability	0
Physical Hazard	1
Personal Protection	X

HMIS RATINGS (0-4)

Section 3. First Aid Measures

Description of first aid measures

After inhalation: Loosen clothing as necessary and position individual in a comfortable position. Move exposed to fresh air. Give artificial respiration if necessary. If breathing is difficult give oxygen. Get medical assistance if cough or other symptoms appear.

After skin contact: Rinse/flush exposed skin gently using soap and water for 15-20 minutes. Seek medical advice if discomfort or irritation persists.

After eye contact: Protect unexposed eye. Rinse/flush exposed eye(s) gently using water for 15-20 minutes. Remove contact lens(es) if able to do so during rinsing. Seek medical attention if irritation persists or if concerned.

After swallowing: Rinse mouth thoroughly. Do not induce vomiting. Have exposed individual drink sips of water. Seek medical attention if irritation, discomfort or vomiting persists. Never give anything by mouth to an unconscious person.

Most important symptoms and effects, both acute and delayed:

Nausea, Headache, Shortness of breath. eye contact with concentrated alkali causes conjunctival edema and corneal destruction. Alkalies penetrate skin slowly. Extent of damage therefore depends on duration of contact. Irritation - all routes of exposure. May be harmful if absorbed through skin;

Indication of any immediate medical attention and special treatment needed:

If seeking medical attention, provide SDS document to physician. Physician should treat symptomatically.

Section 4. Fire Fighting Measures

Extinguishing media

Suitable extinguishing agents: Use water spray, dry chemical, or carbon dioxide to extinguish surrounding fire as this material is non-combustible

For safety reasons unsuitable extinguishing agents: Water - runoff must be collected
Special hazards arising from the substance or mixture:

Thermal decomposition can lead to release of irritating gases and vapors. Nitrogen oxides (NO_x), Oxides of phosphorus, Ammonia

Advice for firefighters:

Protective equipment: Use NIOSH-approved respiratory protection/breathing apparatus.

Additional information (precautions): Move product containers away from fire or keep cool with water spray as a protective measure, where feasible. Use spark-proof tools and explosion-proof equipment. Avoid generating dust; fine dust dispersed in air in sufficient concentrations, and in the presence of an ignition source is a potential dust explosion hazard. Avoid inhaling gases, fumes, dust, mist, vapor, and aerosols. Avoid contact with skin, eyes, and clothing. Non-combustible material.

Section 5. Accidental Release Measures

Personal precautions, protective equipment and emergency procedures:

Wear protective equipment. Use spark-proof tools and explosion-proof equipment. Ensure that air-handling systems are operational. Ensure adequate ventilation.

Environmental precautions:

Prevent from reaching drains, sewer or waterway. Collect contaminated soil for characterization Should not be released into environment. This product is a concentrated source of nutrients that can harm aquatic life; collect for reuse as fertilizer if possible unless contaminated

Methods and material for containment and cleaning up:

Keep in suitable closed containers for disposal. Wear protective eye ware, gloves, and clothing. Always obey local regulations. Avoid dispersal of dust in the air (i.e., clearing dust surfaces with compressed air). Collect solids in powder form using vacuum with (HEPA filter). Evacuate personnel to safe areas.

Section 6. Handling and Storage

Precautions for safe handling:

Minimize dust generation and accumulation. Follow good hygiene procedures when handling chemical materials. Do not eat, drink, smoke, or use personal products when handling chemical substances. Avoid contact with eyes, skin, and clothing.

Conditions for safe storage, including any incompatibilities:

Store away from incompatible materials. Protect from freezing and physical damage. Keep away from food and beverages. Provide ventilation for containers. Avoid storage near extreme heat, ignition sources or open flame. Store in cool, dry conditions in well sealed containers. Store with like hazards

Section 7. Additional Information

This product has been classified in accordance with hazard criteria of the Controlled Products Regulations and the SDS contains all the information required by the Controlled Products Regulations. Note: The responsibility to provide a safe workplace remains with the user. The user should consider the health hazards and safety information contained herein as a guide and should take those precautions required in an individual operation to instruct employees and develop work practice procedures for a safe work environment. The information contained herein is, to the best of our knowledge and belief, accurate. However, since the conditions of handling and use are beyond our control, we make no guarantee of results, and assume no liability for damages incurred by the use of this material. It is the responsibility of the user to comply with all applicable laws and regulations applicable to this material.
